About

CMM360 is a full-featured software application enabling seamless contract management. It focuses on managing a wide range of contract metadata, offering a 360 degree view of contractual obligations and entitlements.

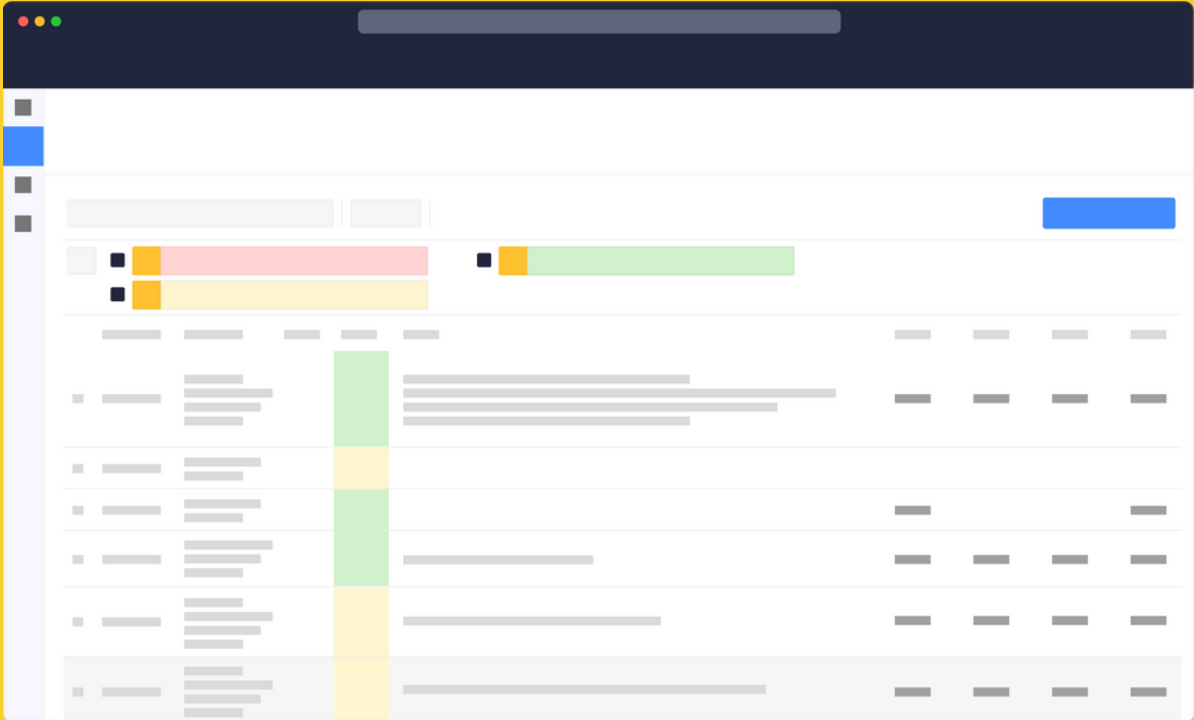

A Modern Platform

A modern platform to store and manage your contracts!

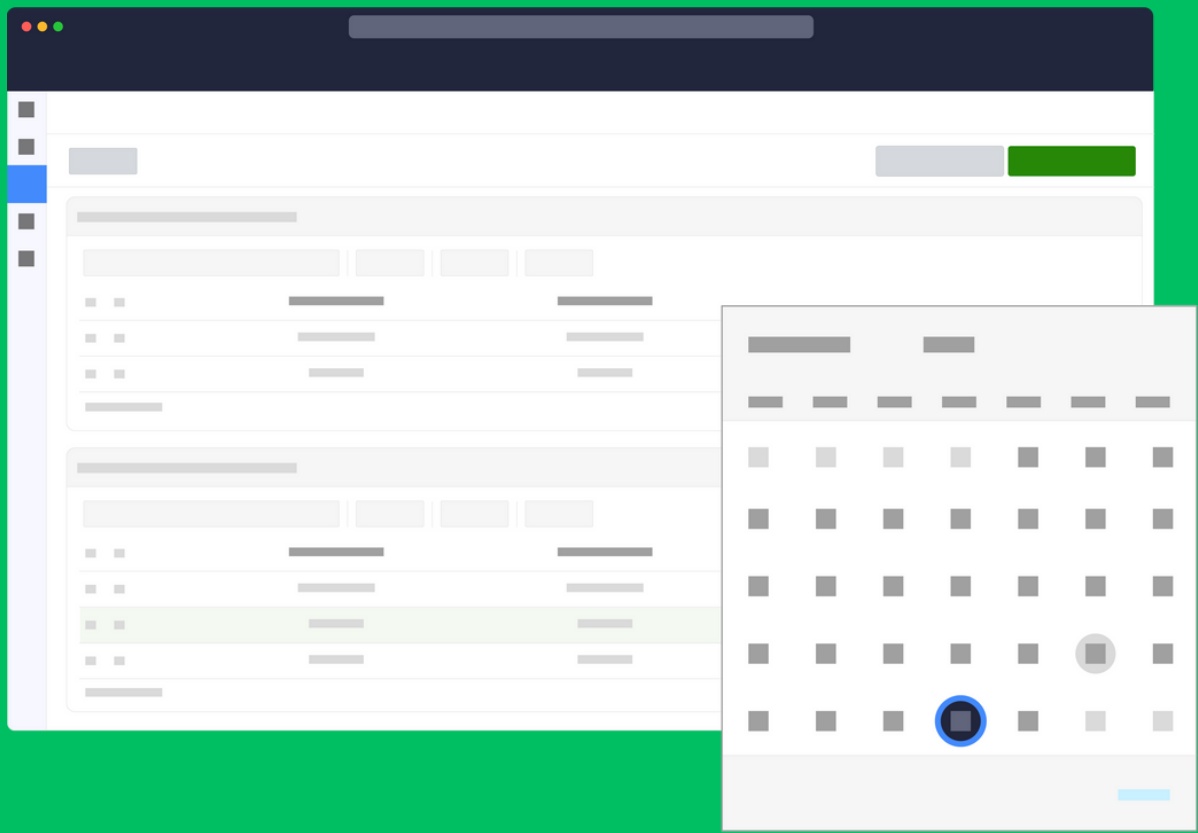

Gain Complete Visibility

List contracts in a repository and view key information

Track Important Milestones

Track key milestones and receive alerts on pending items

Never Miss a € Beat!

Track commercial obligations, including all payments

Why Manage Contracts

Do away with inefficient processes and associated risk

Deal with Missed Opportunities and Revenue Leakage

Do away with revenue leakage, missed savings, and reduced profitability.

Improve Visibility and Gain Control

Do away with difficulties in tracking key contract terms, obligations, and deadlines. Address all compliance issues and reduce risk exposure.

Reduce Compliance Risks and Legal Exposure

Reduce exposure to legal risks, penalties, and disputes. Maintain compliance and mitigate legal exposure effectively.

Types of Documents

(sample, not exhaustive list)

- Vendor Agreements: Manage vendor relationships, pricing, delivery schedules, and service levels.
- Service Level Agreements (SLAs): Track performance against agreed-upon service levels.
- Partnership Agreements: Monitor commitments and responsibilities in partnerships.
- Lease Agreements: Track lease terms, rental payments, and renewal dates for assets or properties.
- Corporate Governance Documents: Monitor compliance with corporate policies and procedures.
